NON-CREDIT COURSE REPORT on

“VIDEO MAKING WITH SOCIAL MESSAGE”

With the title

“Protection Of Endangered Species”

Submitted by

TAUKSIK ANIL KUMAR (1BM20CS172)

in partial fulfilment for the award of the degree of

BACHELOR OF ENGINEERING

in

COMPUTER SCIENCE AND ENGINEERING

B. M. S. COLLEGE OF ENGINEERING

(Autonomous Institution under VTU)

BENGALURU-560019

Oct-2022 to Jan-2023

STUDENT DETAILS:

NAME: TAUHSIK ANIL KUMAR
USN: 1BM20CS172
SEMESTER: 5 th
SECTION : D
THEME OF THE VIDEO: Protection Of Endangered Species

SOCIAL MESSAGE CONVEYED	This video tells us about how the endangered species must be protected.
SOCIAL MESSAGE CONVEYED THROUGH THE VIDEO	Importance of preserving and saving endangered species living in the world.
YOUTUBE LINK OF THE VIDEO	https://youtu.be/n2QiOBzPCOM

Summary

Write about the video and the social message conveyed in the video.

The video talks about the importance of protecting endangered species in the world, and how it can save many lives of animals. To prevent endangered species from becoming extinct, we can take the following measures:

1. Educate ourselves and others on the importance of protecting endangered species in our area.
2. Visit protected lands such as wildlife refuges and parks to support habitats for wildlife.
3. Make our homes wildlife-friendly by securing garbage, reducing water use, and placing decals on windows to prevent bird collisions.
4. Use sustainable products and recycle to support conservation efforts.
5. Avoid purchasing products made from threatened or endangered species.
6. Refrain from harassing or capturing wildlife.
7. Support habitat protection by being mindful of our impact on wildlife when buying a house.
8. Avoid using harmful chemicals such as herbicides and pesticides.
9. Slow down when driving in residential areas to avoid collisions with wildlife.
10. Help protect wildlife habitat by supporting open space protection in our communities.
11. Reduce bursting of crackers in all localities.

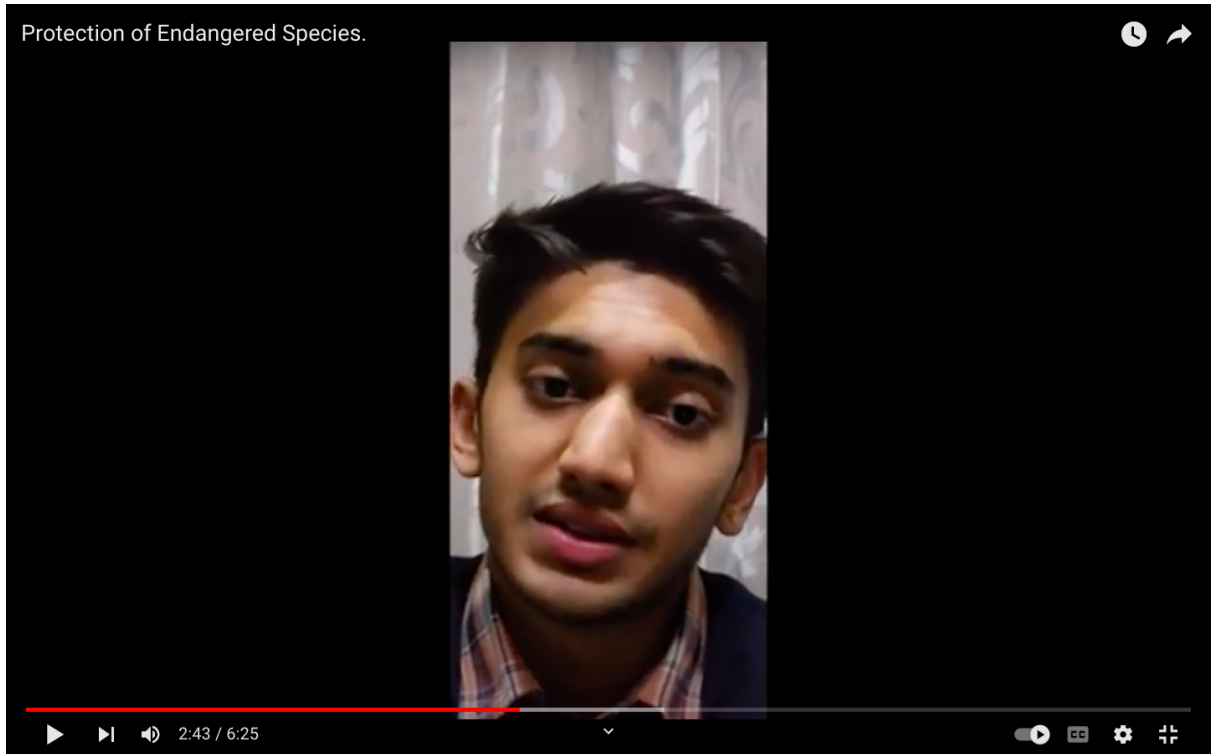

What did you learn after preparing this video?

This video made me more empathetic towards animals and knowledge about the various endangered species. I also got hands on experience with YouTube.

1. Biodiversity is important for maintaining a balanced ecosystem.
2. Endangered species face threats such as habitat loss, poaching, and over-hunting.
3. Human activities are a major cause of endangerment and extinction of species.
4. Conservation efforts, such as protected habitats and species management, can help protect endangered species.
5. It is important for individuals to be informed and take actions to reduce their impact on the environment and endangered species.
